**Subject:** Flavor Ban

I am writing to oppose the flavor ban that was put on adults over the age of 21. I was a lifelong 1 pack a day smoker for over 50 years and the only way I was able to quit was with the flavored vapes. Tobacco flavors just defeat the purpose of people that are trying to quit.

I tried every other FDA approved method and hypnotism for 10 years with no results other than terrible side effects.

Have only licensed shops sell these products with the proper ID required to purchase items. Flavored vaping is so much safer than tobacco products.

Thank You,  
Pam Bruno
